We have the following wording proposals:

• Article 16

This Article could be collapsed into Article 13

In 16.3 We propose to add after the term sexual violence at the end the following: the use of child soldiers, child labour and the general impact such activities and relationships may have on the human rights of all persons living in these areas, including children.

In 16.4: We propose amend as follows: In implementing this LBI, State Parties shall **give** special attention to those facing heightened risks of violations of human rights within the context of business activities, such as women, children, persons with disabilities, indigenous peoples, **transboundary citizens**, migrants, refugees, **stateless persons** and internal displaced persons, **and undertake measures necessary for their protection**.

• In Article 17

We propose to add a new Article 17 bis covering: Dissemination of and information on the LBI

Each State party undertakes to make widely known and to disseminate actively the present LBI and to facilitate access to information about the views and recommendations of the Committee, in particular with regard to matters involving the State party, to all local and national stakeholders, including parliament, executive agencies and ministries, the judiciary, business enterprises operating nationally or transnationally and civil society, by translating it into relevant languages and making accessible formats to adults and children alike, including those with disabilities.

• In Article 22

We propose that no reservations to the present Protocol shall be permitted.

Finally, we call for A new Article on a communications mechanism, including an individual and collective complaints procedure and an inquiry procedure.
