

I had cancer and returned to work between my treatments so we could pay our mortgage. Worked hard all my left, not claimed benefits despite some dire circumstances. Recently lost my job due to illness at 63. No pension, had to sell our home after all we have been through. If I had my pension we could have stayed!  
All I paid in for has been stolen!! I am depressed, anxious and my soul destroyed!  
Theresa May is evil as far as I am concerned - I hope Karma seeks her out.

Lets hope there is a kind soul who will save the hard working women of this country!! God help our children.

You have my permission to print my story.
