

**Data sources for outcome indicators
on Article 31:**

Statistics and data collection

**UNITED NATIONS
HUMAN RIGHTS**
OFFICE OF THE HIGH COMMISSIONER

ADVANCE VERSION

© 2020 United Nations

The *Data Sources Guidance* is a component of the [SDG-CRPD Resource Package](#) developed by the Office of the United Nations High Commissioner for Human Rights (OHCHR). This is an advance version of the SDG-CRPD Resource Package. A final version will be issued upon completion of OHCHR review processes.

The designations employed and the presentation of the material in this guidance do not imply the expression of any opinion whatsoever on the part of the Secretariat of the United Nations concerning the legal status of any country, territory, city or area, or of its authorities, or concerning the delimitation of its frontiers or boundaries.

Symbols of United Nations documents are composed of capital letters combined with figures. Mention of such a figure indicates a reference to a United Nations document.

The *Data Sources Guidance* was produced with the financial support of the European Union. Its contents are the sole responsibility of OHCHR and do not necessarily reflect the views of the European Union.

31.18 Level of satisfaction with the national statistical system in terms of type of data collected and its disability disaggregation by users with disabilities, disaggregated by sex, age, disability.

Level 2: Indicator that could be produced with straightforward additions or modifications to existing data collection efforts

This information can be obtained through a user satisfaction survey, such as the one undertaken yearly by Eurostat (for example, the [report on the Eurostat 2017 User Satisfaction Survey](#)). Currently, this survey does not ask about satisfaction with disability data nor does it ask the disability status of the users, but such information could be added.

31.19 Number of reports intended for the general public produced by the State in accessible formats, disaggregated by type of format and their proportion out of the total number of published States reports.

Level 2: Indicator that can be produced with existing data but has not been reported on

Currently, National Statistics Offices list all the reports they produce. Added to the listing of these reports could be an indicator listing in what accessible formats the reports are available, e.g., audio, Braille, large print, easy-to-read summaries, etc. Producing the indicator would be straightforward.

For example, the [Uganda Bureau of Statistics](#) lists all of their reports by theme, title, size, and dates of publication and uploading, a sample of which is presented in table 1. An additional column could be added to list what formats are available for each publication.

Table 1: Extract of the list of publications from the Ugandan National Statistics Bureau

Theme	Publication Title	Date of Publication	Size of Document	Date of Upload
National Accounts - Environmental Accounting	Uganda Wood Asset and Forest Accounts Report 2020	03/09/2020	9.14 MB	03/09/2020
Prices - Consumer Price Indices(CPI)	Consumer Price Index - August 2020	28/08/2020	1.19 MB	28/08/2020
Business & Industry - Consumer Price Indices (CPI)	COVID-19 Business Survey March to April 2020	19/08/2020	7.12 MB	19/08/2020
Agriculture - Consumer Price Indices (CPI)	Annual Agricultural Survey Calendar Statistical	17/08/2020	225.68 KB	17/08/2020
Public Health - Consumer Price Indices (CPI)	UBOS COVID 19 Information Series No.31	13/07/2020	8.38 MB	13/07/2020
